Jeff,  
Below is a list of ARAR's that you requested in your letter dated November 24, 2009 for the proposed removal actions of containers and soils considered to be hazardous for the Midwest Metallurgical Laboratory facility located in Marshall Calhoun County Michigan. The requirements are all part of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended (NREPA) and include:

Part 31, Water Resources Protection  
Part 55, Air Pollution Control  
Part 111, Hazardous Waste Management  
Part 115, Solid Waste Management  
Part 121, Liquid Industrial Wastes  
Part 201, Environmental Response  
Part 213, Leaking Underground Storage Tanks

Please let me know if you need this formalized in a letter to the EPA or if this email is sufficient. Also, will the MDEQ receive a copy of the report or proposed scope of work report prior to field activities being conducted?

Please let me know so I can keep my supervisors posted. Feel free to contact me if you need anything else. Thanks.
